W. A. Beattie and Miss Edwina Yorke Married

The wedding of William A. Beattie and Miss Edwina Yorke took place Tuesday at the First Presbyterian church, Palo Alto, the Rev. Walter Hayes officiating. Only immediate members of the families were present at the ceremony.

The romance which culminated in the happy wedding had its beginning when the bride and bridegroom were students at the Stanford University, both having graduated with the class of 1907.

The bride is the daughter of Mrs. Edward Yorke of Sacramento, and belongs to one of the oldest of Southern families. She is exceedingly popular, and during her college days was prominent in various college activities.

The bridegroom is the son of Mr. and Mrs. Beattie of Campbell, which place has been his home for many years. Since completing his course at the Stanford University he has been studying at Cooper Medical College, San Francisco, from which he will receive the degree of Doctor of Medicine this year.

The wedding music and march were played by Mr. Benj. Moore, organist of Calvary Presbyterian Church, San Francisco.

The happy couple are now in the South enjoy a month's honeymoon. It is not yet decided whether they will reside in San Francisco or Sacramento.

The Press joins with the many friends in offering congratulations.

S. D. Lancaster Marries

Mr. S. D. Lancaster of Campbell and Miss Leta Briggs of Los Gatos were married at San Rafael last Sunday. Mr. Lancaster is well known and respected here, and is in the employ of the Southern Pacific. Miss Briggs is the daughter of Mr. and Mrs. F. E. Briggs, and, according to the Los Gatos Mail, was one of the most efficient "Hello" girls ever employed at that place. Mr. and Mrs. Lancaster will reside in Campbell.

Orchestral Concerts at Congress Springs

Every Sunday afternoon. D'Abbing's orchestra, assisted by Miss Louise Forcade, soprano, and Prof. S. Schalkhamer, baritone. The public are cordially invited to enjoy these concerts without charge. For an ideal outing, spend the day in this beautiful pleasure park; take a picnic lunch or dine at "The Grill."

Cheerful Wiggles Have Big Squirm

The "Cheerful Wiggles" of the M. E. Sunday school and their teacher, Mrs. C. E. Hanger, surprised their president, Edgar Kennedy, at his home Thursday afternoon, it being his 12th birthday. The class held a business meeting and elected the following officers: Harold Marshman, president; Harry Billings, secretary; Courtland Watson, treasurer; Norman Kelly, captain of behavior; Earl Page, captain of the Look Out Committee. Games were played while preparations were being made for initiation of new members.

The candidates were Clifford White and Kenneth Cowick. Delicious refreshments were served.

Taken at His Word.

He after marriage—What! You have no fortune? You said over and over again that you were afraid some one would marry you for your money. She—Yes, and you said over and over again that you would be happy with me if I hadn't a cent. Well, I haven't a cent.

The Sudden Shock.

"Your wife has received some sudden shock. What has happened?" "I don't know, doctor. I came home early last night." "Ah, that presumably accounts for it."—Washington Herald.

Local and Personal

Mr. F. B. Olmstead went to Santa Cruz Thursday.

Pitting tags at the Press office, 40 cents per 100; 2 for 1 cent.

A light sprinkle of rain fell here last Monday at 10:30 a. m., also twice last week.

Mrs. John Lloyd of Porterville is a guest at the home of her aunt, Mrs. B. Campbell.

Miss Vera Fablinger of the German Hospital, San Francisco, is visiting with her parents here.

Died, at Stockton, July 16, 1911, Ethel May, the dearly loved wife of Reginald Robson, aged 23 years.

A son was born to Mr. and Mrs. J. H. Graves in San Francisco on July 11th. The child died July 15th.

Mr. Reginald Robson and little daughter, Quenie, are guests at the home of his brother, S. G. Robson.

A black dog has been killing chickens on Central Avenue this last week. Woe be to the dog if he is caught.

A few Buff Cochins Bantams from fancy stock. Fine pets for children, 50c up. E. L. Keessling, Phone San Jose 5409R2.

The Golden West Cleaning and Dyeing Co. have appointed Putnams as their agents in Campbell. We guarantee perfect satisfaction.

The regular meeting of the W. C. T. U. will be held at the Coffee Club on Wednesday, July 26th. A full attendance of members is desired.

Mr. and Mrs. S. R. Wade are at Capitola enjoying a vacation. Their son, Herbert Wade, from the south, is taking Mr. Wade's place in the telegraph office.

The Ada Rebekah Lodge held installation services last Tuesday night. Mrs. Hattie Dunham was the installing officer. Refreshments of ice cream and cake were served.

Bert K. Kerr, the Optometrist, at 36 S. Second St., San Jose, will examine your eyes carefully; if glasses are needed, fit them correctly, if not, tell you so cheerfully. See him about your eyes.

Miss Mildred Springer, teacher of piano, starting a class in Campbell. Terms 75 cents per hour, 40 cents half hour. Phone San Jose 3155, 56 Settle Avenue, off Willow Street near Lincoln.

Herbert Gard came down from Vallejo Sunday for a brief visit with his parents and friends. Monday he left for Corning to join the engineering company he is working for where they will install a cast iron water system.

Ladies' hair work, working up combings. Mrs. A. W. Adams, Dillon Ave.

The Campbell Interurban Press, which is the re-incarnation of the Visitor, has entered upon its 17th year, bright, newsy, and well patronized by subscribers and advertisers, but not half so well as it should be—no newspaper ever is. Editor Dick is making a good local paper of the Press, and Campbellites should appreciate it to the limit, and there shouldn't be any limit.—Los Gatos Mail.

"Yale" Fruit Press

Now that summer is come and the fruit season is upon us, every woman who does her own preserving needs a fruit press as a time-saver. She will find it simply invaluable for making all sorts of jams, jellies, grape juice and cider, and she will have much better luck with her sweets than by using the old method of straining through a bag and other old-time methods. They come in two, four and eight-quart sizes, to suit the needs of large or small families, and can be clamped onto any table. They are almost indestructible as the presses are made of plated steel and iron. The thought of having fresh cider on the table every day in the fall should delight every household, particularly if it can be done with such a small amount of labor. Fruit jellies made with this press are absolutely clear and every drop of juice is extracted from the fruit, thus proving how economical such a kitchen utility really is. With such a help as this no housekeeper can dread preserving time.

Death of A. B. Saroyan

A. B. Saroyan died last Wednesday evening after an illness of thirty hours. While working at the cannery Tuesday he became sick and went home at 4 p. m. The physicians found him suffering with a very severe stomach and bowel trouble. An operation was necessary and he was taken to the hospital on Wednesday evening, but died at 10 o'clock with internal hemorrhages before any action could be taken. The remains are now at the Woodrow undertaking parlors, San Jose, from where the funeral ceremonies will be held next Monday at 10 o'clock. Interment at Oakhill.

Mr. Saroyan was of Armenian birth and was formerly a Methodist minister among his people in New Jersey, but came to this state last year for his health. He worked at odd jobs about Campbell until the fruit season opened up. Mr. Saroyan was about 36 years of age, was a man of fine Christian character and industrious. He leaves a wife and four small children. His mother and two brothers from Fresno and Mrs. Saroyan's brother are now here.

The Boy and the Bank

One Dollar Will Start an Account

The first twenty-one years of one's life are spent in preparation for the future, and the habits and thoughts that are infused into a person during those twenty-one years will have the greatest influence on the following years of his life.

The boy should be taught to save and put his money in the bank. It is not discouraging to the boy to try to start a bank account when at our bank a dollar will start an account. A dollar is something to the boy, more than it is to the grown ups, and it may seem a little bit hard for him to save. But urge him to try it, and encourage him by giving him odd jobs to do, or giving him a little money now and then. Test the boy. See if he will not learn to save after urging. Point out to him the advantages of having money in the bank.

Get one of our Pocket Banks for the Small Change and Start the Account now, at the Beginning of the Half Year, and Commencement of the Fruit Season.

A GOOD PLACE TO TRADE

SUMMARY OF
PAST WEEK'S
COAST NEWSInteresting Events Among Our
Neighbors in the Far
West Reviewed.What Has Transpired on the Border
of the Broad Pacific From
Alaska to Mexico.

Petaluma.—The new schoolhouse at Cotati has been completed and is now ready for use. The building is one of the finest in the county.

Washington.—Postmaster General Hitchcock issued an order establishing postal savings banks at Hayward, Imperial and Redondo Beach, Cal.

Martinez.—George C. Searcy, the former tax collector of Contra Costa county, was acquitted of the charge of peculating public moneys while in office by unanimous verdict of the jury.

Portland, Or.—Arrested at Oakland, Cal., Lorenzo Rinaldi and Americus Martinielli are under sentence to serve seven years at McNeil Island for passing counterfeit \$5 national bank notes.

North Vancouver, B. C.—Fire which broke out in the Wallace shipyards, limited, totally destroyed the companies plant. The cause of the blaze is not known. The loss is estimated at \$50,000.

San Francisco.—Robert I. Holbrook was sentenced to 90 days in the county jail by Police Judge Shortall on a charge of disturbing the peace. He was accused of annoying women while they were walking in Golden Gate Park.

Modesto.—Laying of rails has been commenced by the San Joaquin Valley railroad. The line is to connect Stockton and Modesto. It was first intended to start work at French Camp, but Modesto was selected in order to hold the franchise.

Visalia.—Philip Aulman, a well-known rancher, 84 years of age, was burned to death at his ranch four miles east of Visalia, when his clothing became entangled in a fence and the bars held him until the fire, which he had started to burn off dry grass about his alfalfa field, consumed him.

Santa Cruz.—The City Council has adopted a resolution commending the movement to obtain a Carnegie medal for Louis Scholl, who risked his life and saved from drowning Ray Lanfear, who was thrown from the canoe into the breakers. Less than a year ago Scholl saved a man from similar danger.

San Diego.—Upon orders from the War Department at Washington the arms, ammunition, saddles and blankets surrendered to the United States troops at the line when the Lower California rebels were defeated by the Mexican troops from Ensenada have been turned over to the Mexican authorities at Tia Juana.

Raymond, Wash.—Mrs. James Skotchne, a Bohemian, and her three children, two girls, aged six and four, and a boy, aged two, were burned to death at Smith creek, nine miles from here, when their home was destroyed. Mrs. Skotchne was separated from her husband, and is said to have shown signs of mental derangement.

Willows.—Some laborer on the Hess ranch, six miles southeast of here, carelessly dropped a bunch of matches in the dry grain and when the wheel of the reaper ran over it flames broke out that destroyed nearly 50 acres of standing grain, the reaper, and seriously burned Miss Nettie Hess, who was trying to thresh out the fire with a wet sack.

Richmond.—The barmaid is to become a thing of the past in Richmond. Several members of the feminine sex have for some years smiled behind bars owned by themselves in this city, but the Council, after granting six months' renewal of license to two women, instructed the City Clerk to advise all women owning saloons to get rid of them within six months.

Sacramento.—That much concern was felt regarding the reports of cases of spotted mountain fever occurring at State Line Mountain, Lassen county, is shown by the announcement made by Dr. W. F. Snow, secretary of the State Board of Health, that he and Dr. Rupert Blue, physician in charge of plague eradication in California for the United States Government, will shortly make a trip to the infected district for the purpose of making a thorough investigation.

ALAMEDA COUNTY ASSESSOR
FOUND GUILTY OF BRIBERYCaught with \$5000 in Marked Currency
Given for Reduced Assessment.

Oakland.—Henry P. Dalton, for almost 17 years Assessor of Alameda county, has been found guilty of bribery. The crime of which he was convicted was the asking for and accepting a bribe of \$5000 from the Spring Valley Water Company for agreeing to reduce the corporation's assessment in Alameda county by \$2,500,000.

Caught with \$5000 in marked currency in his pocket after it had been handed to him by the vice-president of the company, confronted with numerous witnesses, who told of incriminating conversations and actions, Dalton had no defense. Yet he fought back with the same spirit with which he beat back for 16 years the many efforts made to defeat him.

The trial lasted 23 days, and the jury deliberated four hours, bringing in the verdict, "guilty of felony as charged." The crime is punishable by imprisonment in the State prison not less than one year and not more than 14 years, and in addition thereto forfeits his office and is forever disqualified from holding any office in this State.

THIRTY MEXICANS DEAD IN
DRUNKEN BROIL IN PUEBLAMaderistas Said to be Responsible For
Attack On Penitentiary.

Puebla, Mexico.—Three soldiers of the Twenty-ninth battalion and a number of Maderistas, estimated as high as 30, were killed and many others injured in a battle between the two forces which raged in the streets of this city one night last week. Forty Maderistas are prisoners in the barracks of the Saragoza battalion.

The fighting ceased only when Governor Canete appeared with a white flag and pleaded for peace. A special train with Francisco I. Madero on board arrived in the city soon after the battle began. It is alleged that drunken Maderistas made an attack on the penitentiary with dynamite bombs in an effort to release the prisoners. The Saragoza troops stationed close by opened fire.

Kicks Bomb for Foot-Ball.

New York.—As he was leaving a Brooklyn police station Sergeant Michael Lane saw an object on the sidewalk which looked to be a rubber football. He stepped back a few paces, got a running start and gave the supposed ball a kick. It was a bomb. Sergeant Lane fell to the street unconscious and every widow in the station house was shattered. The Sergeant was removed to a hospital. Detectives who examined the fragments of the bomb said that it had contained enough powder to blow up a city block.

Fugitives Deliver Themselves.

New York.—Jules Rosenberg, who, with his brother Hugo, has been a fugitive from justice for more than a year, came from Montreal and unexpectedly appeared in the criminal branch of the United States Circuit Court and pleaded guilty to undervaluing importations of millinery and dress goods. Although District Attorney Wise made a strong plea for a prison sentence, Judge Archibald fined Rosenberg \$25,000 and costs, amounting to \$3000.

Insane Patients in Riot.

Gallipolis, O.—Several attendants and patients were badly injured in a riot which broke out in College "I" at the Ohio Hospital for Epileptics. Five insane patients started the trouble. Attendants were terribly beaten and bitten by mad patients. Persons in the vicinity came to the aid of the hospital guards and the riot was quelled.

Gave Up Fortune For Country.

Greeley, Colo.—In order that he might fight for the Union 51 years ago, F. W. Garvin left his homestead of 160 acres and 20 tons of fine hay and went to the front. The other day en route east he stopped here and stated that his property embraced what is now the heart of the city, which is worth no less than \$1,500,000.

Severs Jugular with Small Knife.

Napa.—Mrs. Anna McAvoy, one of the joint lessees of Highland farm, a summer resort in this vicinity, committed suicide. Choosing a time when her companion was out of the house, she seized a small knife and severed her jugular vein. She was found dead.

Sleepers Alloted as to Colors.

Shreveport, La.—That a negro woman cannot in this State occupy a berth in a sleeping car where there are white passengers was ruled by Judge Blanchard in police court here.

Officials All to Share Alike
From State Store Room

Sacramento.—The State will handle the supplies for all State institutions from a main store room in the Capitol, and officers must get material for their offices from the common depot or pay for them.

State officials will not have the privilege of going to their favorite stationers and supply men and purchasing material for their offices and charge the same to the account of the State of California.

They will also not have the privilege of drawing upon State supplies without an account being kept of each bottle of ink, box of pens and such things.

All this has come about through an order of the State Board of Control, and Capitol Superintendent Radcliff is in charge of the supply store. No article will be given out without a requisition from a State official or a

chief deputy. These requisitions are in uniform blanks and each office has plenty for all needs.

Under the old way of doing things, material, such as stationery and other supplies, were purchased at any old price obtainable.

Hospital superintendents, physicians, secretaries and their families at State hospitals desiring "extras" for their table, delicacies for the entertainment of friends or any little affectation of high living and luxury shall be paid for by those getting them.

Officials and employees must, hereafter, use the provisions and material, drugs, etc., which the State provides. The best is purchased and the Board of Control figures that the best is good enough for patients and officials alike. There will be no more banquets at the expense of the State in the insane asylums.

Terrible Toll of Death Taken
By Michigan Fires

Cobalt, Ont.—More than 300 dead by forest fires in the Porcupine district of Ontario is a record for holocausts in the Dominion of Canada. Damage to the extent of millions of dollars has been done, thousands of acres of timber have been devastated, many mines have been ruined and still the flames rage unchecked. It is feared many lives have been lost in sections from which, as yet, no word has come. The known dead in the Porcupine are:

At the West Dome Mining Company's shaft, Assayer Birt and wife; Manager Robert Weiss, his wife and their three-year-old daughter; Chief Carpenter James McQueen; Captain Jack Hamilton and 27 foreign laborers.

At the United Porcupine mine The foreman and three laborers; at the Philadelphia mine, five children of George Dunbar; at the Dome mine, 30 laborers; they were cut off in a shaft and smothered to death.

Drowned in Porcupine Lake: Nathan Haas, Andrew Larne, Marvin Strain, William Moore and R. F. Mondue, all of Spokane.

More than 200 settlers, with their wives and families, who had clearings in the fire zone, are missing and most of them are believed to be dead. In the Porcupine district alone fully 200 foreigners have perished in the various mine workings, where they were employed as laborers. In some mines practically every living being was scorched to death. Many mines were totally ruined.

Chief of Bureau of Chemistry
Subject of Charges

Washington.—An investigation of the Department of Agriculture by a House committee will be one of the direct results of the charges made public against Dr. Harvey W. Wiley, food expert and chief of the bureau of chemistry, through which an attempt is being made to force him from office.

The committee on personnel in the department of Agriculture has recommended to President Taft that he be "permitted to resign."

At the White House it was said that a copy of the charges against Dr. Wiley had been forwarded to him, and pending his reply, nothing will be done. It can be stated emphatically, however, that President Taft has not requested Dr. Wiley's resignation. Nor will Dr. Wiley resign.

The specific charge against Dr. Wiley is that he has violated the law prohibiting payment of more than \$4000 salary to an expert. Dr. Wiley is charged with sanctioning payment of \$50 a day to Dr. Rusby, an expert for testimony on a witness stand, but this payment was to come from a salary of \$4000 a year to the same expert, who was to be called on when needed. The \$50 fee was the expert's fixed charge.

Democratic members of Congress are rushing to the support of the accused chemist. They assert that the movement against him is founded on envy and malice and is backed by the interests behind adulterated food and drugs which Dr. Wiley has fought consistently.

War Clause to be Dropped in
Anglo - Japanese Alliance

Tokio.—A revision of the Anglo-Japanese alliance is regarded as the inevitable outcome of the Anglo-American arbitration treaty. There is reason to believe that the negotiations for such a revision have been going on for several weeks. It is reported that Great Britain proposed to modify the clause providing for mutual assistance in the event of war, making the provision inapplicable in the event that either party to the alliance is fighting

a nation with whom the other has concluded a general arbitration treaty.

It is understood that Japan readily agreed to this proposition, and the Associated Press is informed that the readiness of the Japanese Government to accept the suggestion was due to its entire confidence that Japan would never be at war with either the United States or England. The revision probably would involve the extension of the term of the treaty alliance for fifteen or twenty years.

Smuggling of Chinese Into U. S.
From Mexico Renewed

San Diego.—With the arrest recently of six contraband Chinese in the country back of San Diego, local officers of the immigration bureau admitted that the activity of the smugglers of Chinese in Lower California had been resumed.

It is estimated by the immigration officers that there are now about 400 Chinese in Ensenada, 90 miles south of San Diego. Many of these are said to be afflicted with trachoma and other contagious diseases, and consequently the vigilance of the immigration officers on sea and land has been redoubled.

So far most of the Chinese are believed to be coming north overland. The revenue cutter McCulloch is in San Diego Bay, and recently returned from a trip to Ensenada. On this trip, it is said, three boatloads of Chinese were forced to put back to the Lower California coast on being sighted by the McCulloch.

Mexicans so far have been most active in trying to get the Chinese into California and two notorious smugglers are in jail here now as a result of an attempt to get five contraband Chinese into the United States.

GET TRADE-UNION DOCTRINE
IN FIRST BOOK AT SCHOOLThe Time Honored Cat and Dog Dis-
carded and "Union" Substituted.

Chicago.—A novel method of spreading the gospel of unionism among Chicago's foreign population has been adopted by the women trade unionists.

Lessons in English are being given foreign working girls, but the old primer has been discarded and a new one substituted by the Women's Trade Union League.

The time-honored cat, which has done service in connecting ideas with objects, has been discarded and the "union" substituted. In getting her first lesson in reading the pupil no longer reads, "I see the cat," but instead she reads, "I am a union girl."

The lesson proceeds, "I start work at 8 o'clock in the morning. I quit at 5 o'clock in the afternoon."

In another lesson the condition of the non-union girl is contrasted with that of the union girl. It reads:

"I am not a union girl. I begin work at 7 o'clock in the morning and I work until 6 o'clock in the evening. I get \$4 a week."

The new system of education was explained at the meeting of the Women's Trade Union League.

SEVENTY MILLION ACRES
SOON OPEN TO SETTLERSCoal on These Reservations Have Kept
Land Tied Up Until Now.

Seattle, Wash.—Seventy million acres of Government land, now closed, will be thrown open to entry upon the completion of investigations of 14 Government survey parties now in the field in North and South Dakota, Montana, Wyoming, Idaho, Washington, Oregon, Utah and Colorado, according to W. G. Calvert, Government Geologist.

Calvert is making a general inspection of work done by the geologists of the survey parties. Calvert said that this land would be opened by the Interior Department just as soon as the amount of coal in the land was ascertained.

The coal on these reservations is practically the only thing that has caused them to be held up.

Floods in El Paso Valley.

El Paso, Texas.—A rainfall of one and forty-seven hundredths inches following previous heavy rains, caused flood conditions in El Paso valley. Property damage was heavy and one drowning has been reported. Many adobe houses in the lower parts of the city crumbled and stores and warehouses were flooded. The Santa Fe railroad tracks in the city were washed out and trains were delayed for hours. Washouts on the Mexican National have delayed traffic and other roads have had washouts of less serious nature.

Death of Rancher a Mystery.

Ross.—Mystery surrounds the death of Frederick R. Hintz, a Montana rancher, who was killed by an east-bound Northwestern Pacific electric train. The body was cut in half, and while the authorities are inclined to believe that Hintz committed suicide, certain clues do not point that way. Five shots were heard an hour before the train struck the body. The motor-man says the man lay across the tracks, apparently dead before the train struck him.

Well Known Aviator Hurt.

Erie, Pa.—J. C. (Bud) Mars, well-known American aviator, was fatally injured here when he lost control of his machine in a flight and crashed from a height of several hundred feet to the ground. The heavy bi-plane dropped on top of him. His injuries are of such a nature, it is said, that there is practically no hope of his recovery.

Forest Fires Burn Towns.

Bay City, Mich.—Osceoda and Au Sable in the fire-swept district are said to be completely destroyed and East Tawas is taking care of many refugees. A. P. Jacobs, a Chicago traveling man, said there were reports of a number of bodies burned and blackened beyond recognition found on the streets of Osceoda and Au Sable.

Cremated When Home Burns.

Santa Barbara.—Helen Shumak, three years old, daughter of William Shumak, capitalist, was cremated here when fire destroyed the Shumak home, in fashionable Montecito, a suburb. Shumak was painfully burned in an effort to save his daughter.

Goldfield Suffers Fire Loss.

Goldfield, Nev.—Fire started in a shack next door to Carpenter's hall and caused damage to the hall of \$15,000. The loss is partly covered by insurance.

WORLD'S NEWS
OF THE WEEK
SUMMARIZEDAdventures of the Children of
Mother Earth Related in
Condensed FormComprehensive Review of Passing
Events in Every Quarter of
the Terrestrial Globe.

New York.—Diving from the same spot where his brother broke his neck three years ago, Waldorf Millen was killed here.

Atlantic City, N. J.—Portland, Or., was chosen by the Grand Lodge of the Protective Benevolent Order of Elks as the next meeting place. The western city had no opposition.

New York.—Fifty passengers on a suburban trolley car were bruised and shaken up and two men were fatally injured here in a collision between the car and a heavy truck loaded with cement.

Boston.—Marquis Charles de Bouthellier Chauvigny, an eminent lecturer, recently appointed a professor of French literature and politics at Harvard University, died from the effects of the protracted heat.

Boston.—Christian Scientists the world over have been invited to contribute toward a memorial to the founder of their faith, Mrs. Mary Baker G. Eddy, to be erected over the grave in Mount Auburn cemetery, Cambridge.

Union Hill, N. J.—A burrowing house fly is held responsible for the death here of five-year-old Thomas Halleran. The child was taken ill some days ago with an abscess in the ear. An operation revealed the presence of a fly in the inner ear.

Washington.—Democratic members of the House Committee on Ways and Means resumed work on the cotton schedule and expect to have the bill ready in a few days. The duties are to be cut on all cotton goods from 30 to 50 per cent, and are to be levied on an ad valorem basis.

Bridgeport, Conn.—Twelve persons were killed and 44 were frightfully hurt when the Federal Express, bound from Washington, D. C., to Boston, over the New York, New Haven and Hartford Railroad, was hurled over the viaduct here by an open switch, while running at 60 miles an hour.

Chicago.—One hundred and fifty families were driven in to the street by a fire which destroyed the Norwood, a large apartment building at the corner of Thirteenth street and Indiana avenue. Two women were severely injured while being removed from the building. The loss is \$100,000.

Galveston, Texas.—Thousands of head of cattle have died from heat, hunger and thirst on the ranges in western Texas and in the Pecos valley and the losses even now are estimated from \$600,000 to \$750,000, and unless generous rains fall within ten days the losses will be a couple of million or more.

Cleveland.—Two hundred women started a riot at a station of the City Ice Delivery Company because they could not get all the ice they wanted. Some one spread the rumor that the distribution was to be discontinued altogether, and at that the women rushed the doors and threw stones at the windows. There women were arrested.

San Juan, P. R.—South American advices received here say it is reported that former President Zelaya is endeavoring to start a revolution in Nicaragua and has the support of a former ally of his, now President of a South American republic. Also a report that the latter met Zelaya and Castro recently in Europe and arranged for an invasion of Nicaragua and Venezuela.

New York.—Wearing a short skirt and a bright red waist, Miss Nan J. Aspinwall rode into City Hall Square one day last week, and dismounting, presented a letter from Mayor McCarthy of San Francisco to Mayor Gaynor's secretary. The Mayor himself was out of town. The letter certified that Miss Aspinwall on September 1, 1910, had set out to ride across the continent.

New York.—After having spent three days and nights in a swamp near Caldwell, N. J., Aaron Kennedy is dead from mosquito bite poisoning. He was out for huckleberries and wrenched his ankle so he could not walk. When he was found three days later swarms of mosquitoes had bitten him until his features were swollen beyond recognition. He had fought the pests by building a fire and he was found unconscious near the ashes.
